

HP Appoints Rob Scott Vice President and Worldwide General Manager of Halo Visual Collaboration and Telepresence Business

PALO ALTO, Calif., March 30, 2010 – HP today announced the appointment of Rob Scott as vice president and worldwide general manager of the Halo Visual Collaboration and Telepresence business.

Scott will have responsibility for HP Halo's business operations and growth strategy.

Scott joined HP in 2008 with the acquisition of Colubris Networks, where he had been chief executive officer. He most recently served as vice president of HP ProCurve's Global Account Sales, Enterprise Sales, Alliances, Sales Operations and Halo Sales and Marketing. Scott will report to Shane Robison, HP executive vice president and chief strategy and technology officer.

"Rob brings nearly 30 years of industry knowledge and operations experience to Halo, which he gained from both founding and leading innovative companies in the audio, video and networking businesses," said Robison. "He is a great asset to the Halo team and will help accelerate our growth strategy for the Halo business to ensure that we keep winning in the market."

Former HP Halo General Manager Ken Crangle will continue as a vice president in the organization, reporting directly to Scott as part of his leadership team.

Before joining Colubris, Scott served as president and chief executive officer of Xelor Software, where he established the company's U.S. headquarters and launched a new software solution for IP telephony and voice-over-IP service quality management.

HP Halo Collaboration Solutions help enterprises worldwide reduce travel and carbon footprints while increasing productivity among globally dispersed teams. With 40 years of experience delivering network solutions, HP works with customers to better manage costs, reduce the need for IT support and enjoy exceptional collaboration experiences.
