Mobile printing made easy

## Make printing easier wherever business happens

Your business is constantly on the move. Mobile devices keep you connected wherever you go, with e-mail, Internet and the latest presentations and contracts at your fingertips—everything but the ability to print. HP cloud printing will transform business mobility.

## Convenient mobile printing virtually anytime, anywhere

With HP CloudPrint, printing becomes as mobile as business demands. The HP CloudPrint Enterprise Edition allows for web-enabled mobile phone users to print virtually anytime, anywhere to a network printer. Free your documents from mobile devices—including attachments—so you can print wherever business happens. Easily print from mobile devices, including BlackBerry®, print securely at any of your company offices—even print conveniently on the go.

## All it takes is three clicks to print:

- Hit the Print button on your BlackBerry
- Search for and select the printer you want to use
- Send the email and attachment to print

## You can use HP CloudPrint Enterprise Edition to:

- Print from mobile devices without cables, Wi-Fi, printer drivers or special software
- Find the nearest network printer using geo-locating
- Print from any distance via e-mail
- Maintain security of your information
